Better Roads From Better Technology

16TH ANNUAL
Conference & Workshop

Hyatt Regency Riverfront
Jacksonville, Florida
February 17 – 19, 2015
CONFER Ence SPONSORS

Our Thanks To The Following Companies Who Have Provided Sponsorship Funding For The Conference

Our thanks to the AMAP Support Team for making this Conference possible

John Casola, Malvern Instruments – Program Chairman
Cindy Prewett & ECF, Inc. – Accounting & Finance
Katrina Tohle & Pegasus Planning – Event Planning & Organization
Brian Hirt & CTC & Associates – Communications & Promotion
Arden Barnhart & Ad Graphics, Inc. – Program Graphics & Design
MISSION STATEMENT

AMAP will promote the highest standards of quality and performance in modified asphalt products.

AMAP will inform and educate owners, contractors and specifying agencies about the economic and performance benefits of modified asphalt binders and materials for improved pavement performance.

As an Association we shall:

• **Be a consolidated voice** on issues pertaining to modified asphalt that will grow the industry.

• **Encourage** User-Producer agencies to adopt higher performance modified asphalt binders.

• **Evaluate** without bias and communicate advancements in modified asphalt technologies.

• **Promote** standardization of asphalt binder and material testing procedures.
On behalf of the Association of Modified Asphalt Producers, I welcome you to the 16th Annual Conference, held this year in beautiful Jacksonville at the Hyatt Riverfront. Our venue sits on the banks of the St. Johns River and is centrally located to offer our attendees access to all that Jacksonville has to offer. Take a river cruise from the Jacksonville landing or head over to San Marco, a shopping and dining destination in the heart of historic Jacksonville.

I invite you to attend the optional AMAP Modified Asphalt Workshop. It presents information on the chemistry of asphalt and modifiers, and information on various modified asphalt systems, testing procedures and the proper use and handling of these materials in the field. The training course is conducted by some of the best experts in the field of modified asphalt and modified asphalt testing.

On Wednesday we look forward to hearing the perspectives of keynote speaker Timothy J. Ruelke, Director of Florida DOT’s Office of Materials. Please join us at our luncheon on Wednesday when we will be announcing our Dave Jones Scholarship winners and awarding our AMAP Person of Year Award. As a special addition, we have an outstanding guest speaker, Dr. Ratanjit S. Sondhe, executive coach and author who has close ties to our industry. Also, be sure to join us for Wednesday evening’s reception, when we induct Dr. David Anderson into our “Asphalt Industry Hall of Fame” and present him with our Lifetime Achievement Award. Another new feature this year will be are tabletop exhibit area. Please stop by the vendor booths to learn more about products that support the modified asphalt industry.

AMAP is the only organization solely dedicated to sponsoring research on the performance benefits of modified asphalts and to promoting the proper use of modified asphalt materials in the paving industry. Now, more than ever, we need to focus our industry on longer lasting solutions based on performance to achieve the best balance between cost and performance. Please attend the business meeting and tell us how we can accomplish this goal for your company. Get involved and serve on an AMAP committee – we need your help to move this organization and this great industry forward!

If you are not already a member company, I urge you to join our group. Our voice grows as our membership grows.

Thank you for attending and supporting AMAP and enjoy your stay here in Jacksonville.

Sincerely,

Jeanne Kendrick, President
Association of Modified Asphalt Producers
It is my pleasure to add my welcome to AMAP’s 16th Annual Conference & Workshop.

Our highways are an indispensable part of our lives and essential to sustaining a viable economy. We depend on them to deliver a major portion of raw materials and goods. They connect us to our jobs and our loved ones. We use them each and every day, for every conceivable purpose.

I hope this conference will provide a meaningful exchange of ideas and information that will keep modified asphalt systems the first choice for meeting the highway needs of owners/agencies, taxpayers and the traveling public.

As in past years, we have brought together leading experts in polymer, additive and asphalt technologies to discuss the issues of the day and to address the advances in materials and methodologies that allow modified asphalt products to sustain—and increase—their economic and performance value.

As we start 2015, I am pleased to recognize 19 companies and organizations that have joined AMAP in its mission to promote the advancements in materials and technology that will sustain and enhance modified asphalt’s value. Since our last meeting, these companies have become AMAP members:

- Alon Asphalt Company
- American Gilsonite Company
- Anton Paar USA
- AVIC Lutong Company Limited
- BASF
- Dynamic Surface Applications, Ltd.
- The Gorman Group
- Heatec, Inc.
- Intertek
- Jiangsu Xinyue Asphalt Co., Ltd.
- LaFarge Asphalt Technologies
- Louisiana Asphalt Pavement Association
- Miami Chemical
- Owens Corning
- Rubberized Asphalt Foundation
- Safety-Kleen
- UNIQUE Paving Materials Corporation
- Wacker Chemical Corporation
- Zydex, Inc.

If your company is not yet an AMAP member, I hope that by the end of this conference you will consider joining. There is no better way to support our common mission to achieve BETTER ROADS FROM BETTER TECHNOLOGY.

Jim Sattler
Executive Director
KEYNOTE SPEAKER

Timothy J. Ruelke, P.E., Director of Materials
Florida Department of Transportation

Timothy J. Ruelke graduated from the University of Florida in 1989 with a Bachelor of Science in Civil Engineering. With more than 25 years of experience with the Florida Department of Transportation (FDOT), Ruelke has served in a variety of Materials positions at the District and Central Office levels, and was the District Two Construction Engineer for six years. He is currently the Director, Office of Material at FDOT’s State Materials Research Park in Gainesville.

GUEST SPEAKER

Ratanjit S. Sondhe, Ph.D.
Founder Discoverhelp, Inc.

Dr. Ratanjit S. Sondhe came to America from India with eight dollars in his pocket to study polymer science at The University of Akron. He went on to found PolyCarb Corporation, where his out of the box thinking revolutionized the way highway paint stripping was marketed.

After selling the Company to The Dow Chemical in 2007, Dr. Sondhe has gone on to found Discoverhelp, Inc. and has become a highly successful author, lecturer, consultant and TV and radio personality. Often referred to as Mr. Stress Free, Dr. Sondhe has built his career on the principles of oneness — the fundamental awareness that we are all interdependent and interconnected with each other and our planet.
Better Roads From Better Technology

CONFERENCE SPEAKERS

SESSION 1

Peter Grass
Asphalt Institute
Peter is President of the Asphalt Institute. Before joining the Institute he served with the US Army Corp. of Engineers for 20 years. He holds a BSCE, Civil Engineering from the University of New Hampshire and a MSCE, Civil Engineering from Georgia Institute of Technology.

Gerry Reinke
MTE
Gerry has a B.S. degree in chemistry. He began working in the asphalt industry while in college. In 1972 he joined Asphalt Products Co to work on emulsion formulations and asphalt blending. From 1979 to 1991 he served as Vice President of Technology for Koch Materials Co and in 1991 joined Mathy Construction Co. as Technical Director. In 1993 Mathy Technology and Engineering Services was formed as subsidiary of Mathy Construction he has served as President of MTE Services from 1993 to the present. Gerry is a member of numerous technical organizations devoted to the use of bitumen and bituminous mixtures. His recent work has involved development of warm mix technology and research into the impact of reduced mixing temperatures on mix performance particularly the role of RAP binders in warm mixes. He has also worked on developing a procedure for obtaining emulsion residues using a vacuum procedure and using the 4 mm DSR test procedure to characterize the emulsion residues over a wide temperature range.

Jay Hansen
NAPA
Jay joined NAPA in November 1998 as Vice President for Government Affairs after more than 12 years working in the Congress. Jay has led the industry’s efforts to secure Federal highway funding, worked to defeat harmful pavement mandates, secured nearly $60 million in asphalt pavement research and deployment funding and arranged for the construction of an asphalt pavement exhibit at the National Museum of American History which attracts over 4 million visitors annually. On November 2011, Jay was named NAPA’s Executive Vice President.

SESSION 2

Tanya Nash
FL DOT
Tanya received her Bachelor's and Master's Degree in Biomedical Engineering from the University of Florida. She worked at UF in the Civil Engineering Department as a Research Engineer for 6 years where her time was mainly spent working on applying nanotechnology and microscopy techniques to the understanding of construction materials. Currently, she is at the Florida DOT working as the Bituminous Materials Specialist. Her responsibilities encompass the technical aspects of the FDOT's liquid asphalt program and specifications as well as an assistant to the State Bituminous Engineer handling any field operation issues and innovative research.

Gerald Peterson
Texas DOT
Jerry is a chemical engineer from Texas A&M University. He did his master's degree research in asphalt recycling before going to work for TxDOT as an asphalt binder specialist in 1993. Jerry currently works for TxDOT's Construction Division as manager of the Asphalt Binder Lab, Chemistry Lab, and Laboratory Calibration Program. He also serves on the executive committee of AASHTO's National Transportation Product Evaluation Program and is a member of the board of directors of the Texas Juggling Society.

Bill King
Louisiana DOTD
Bill is the Materials Research Administrator for the Louisiana Transportation Research Center. He is a member of the Transportation Research Board (TRB) – AFK50 and a former member of TRB AFD40 committee and friend to AFK20, AFK30 and AFK40 committees. He is a graduate of the Louisiana State University with a B.S. in Civil Engineering.
Lyndi Blackburn
Alabama DOT
Lyndi has been with the ALDOT 22 years. She is a professional Engineer in the State of Alabama, currently the Assistant State Materials and Tests Engineer. She has been involved in asphalt and pavements for the last 10 years. Lyndi is Vice Chairman of Subcommittee on Materials Technical Section 2b for Liquid Asphalts and has worked in various positions throughout the Department during her career.

SESSION 3

Matt Corrigan
Federal Highway Administration

Buzz Powell, Ph.D.
NCAT
Buzz earned a Ph.D. in Civil Engineering at Auburn University with an emphasis in pavements and geomaterials. He worked for 12 years with the Alabama DOT and 2 years in the private sector before becoming NCAT’s Test Track Manager in 1999. He has been an Assistant Director at NCAT since 2007.

John D’Angelo, Ph.D.
D’Angelo Consulting
John is Chief Operating Officer at D’Angelo Consulting, LLC. His company specializes in asphalt materials, pavement design, materials testing, asphalt mix design, construction quality control and forensic evaluations. He was formerly Asphalt Materials Engineer and Asphalt Team Leader with the Federal Highway Administration. He received his PhD from the University of Calgary.

Mark Buncher, Ph.D.
Asphalt Institute
Mark is the Director of Engineering for the Asphalt Institute, working at their Headquarters in Lexington KY for the past 17 years. The Institute’s mission is to serve both users and producers of asphalt materials by advancing technology and improving pavement performance through programs of education, engineering and research. Prior to joining the A.I., Mark served in the U.S. Air Force for 16 years as a Civil Engineering Officer. He is a Professional Engineer, has his B.S. in Civil Engineering from the Missouri University of Science and Technology, M.S. in Civil Engineering from the University of New Mexico, and his Ph.D. from Auburn University. Mark and his wife Cathy have 7 children and now two grandchildren.

SESSION 4

Harold Von Quintus
ERES Consultants
Harold serves as a Principal Engineer with Applied Research Associates in their Round Rock, Texas office. He graduated from the University of Texas at Austin with a Bachelor of Science in Civil Engineering. He has nearly 40 years of experience in flexible pavement design and materials engineering, including the application of nondestructive testing technologies. He has served in multiple roles regarding SHRP 1 and LTPP, as well as in the development and calibration of the Mechanistic Empirical Pavement Design Guide.
Edgard Hitti
Alon
Edgard is the Director of Asphalt Technical Services for Alon Asphalt Company. He earned a Master’s Degree in Pavements/Materials Engineering from the University of Nevada in 2001. He has extensive experience in the formulation, production, and construction of paving & industrial asphalt. The past 10 years he has been in charge of producing rubber modified paving grades, cutbacks and tire rubber-modified emulsions.

Delmar Salomon, Ph.D.
Pavement Preservation Systems LLC
Delmar is the President and Founder of Pavement Preservation Systems, LLC. He was Chairman of the TRB Committee, AFK20 on “Characteristics of Asphalt Materials”, April, 2008 to April 2014. He is a member of the Board of AMAP, chair ASTM Subcommittee D0422 on the “Effect of Water and Other Elements on Bituminous Coated Aggregates”, and Chair, ASTM Subcommittee 04.33 “Formed in-place Sealants for Joints and cracks in Pavements”. He holds a Ph.D. in Chemistry from Worcester Polytechnic Institute, Worcester, MA.

Amir Golalipour, Ph.D.
Anton Paar USA
Amir is the Asphalt Application Engineer for Anton Paar USA. He received his Master’s and PhD. from the University of Wisconsin-Madison. His graduate research focus was on new asphalt modification techniques and materials. He worked on Multiple Stress Creep and Recovery (MSCR) test as his Master’s thesis and effect of oil modification on low temperature performance of asphalt binder. In addition to his technical support for Anton Paar USA customers, Amir is a regular contributor as a member to asphalt technical meetings such as ASTM and PCCAS.

Jean-Pascal Planche, Ph.D.
Western Research Institute
Jean-Pascal is Vice President of the Transportation Technology Business Unit at Western Research Institute (WRI). He has worked more than 25 years in the asphalt industry in Europe and the United States. He was inducted into the AMAP Hall of Fame in 2011. From 2005 until joining WRI in 2010, he was the international bitumen coordinator for Total Bitumen in Paris, the fifth largest international oil company in the world. Since 2001, Dr. Planche has served as the liaison between Eurobitume (EU) and the Transportation Research Board (US) committee on asphalt binder standardization.
AMAP Hall of Fame
LIFETIME ACHIEVEMENT AWARD

Presented To:
David A. Anderson, Ph.D.

Dr. Anderson is a professor emeritus of civil engineering at Penn State. He has been active in the area of paving materials and pavement performance for more than 40 years. During that time he has been principal investigator or co-principal investigator on projects totaling nearly $20 million. Dr. Anderson was responsible for the development of the asphalt binder testing procedures during SHRP and delivered a significant portion of the technology that is currently being implemented under Superpave. Dr. Anderson has had considerable experience in pavement durability testing and has been responsible for managing a number of field studies. Dr. Anderson was a co-principal investigator for SHRP Research Project A-002A, in which he was responsible for the physical property-related studies on asphalt binders. In this study, Dr. Anderson’s research team at Penn State was responsible for developing the new SHRP test methods for asphalt binders and played a major role in developing the current asphalt binder specification and associated test methods. The research resulted in a new generation of asphalt binder specifications.

Education
- 1971 Ph.D., Purdue University
- 1964 M.S., University of Connecticut
- 1962 B.S., University of Connecticut

Experience
- Professor, Department of Civil and Environmental Engineering, The Pennsylvania State University (1982 - present)
- Associate Professor, Department of Civil and Environmental Engineering, The Pennsylvania State University (1975 - 1982)
- Senior Civil Engineer, Technical Staffs Division, Corning Glass Works, Corning, New York (1974 - 1975)
- Assistant Professor, West Virginia University, Morgantown, West Virginia (1971 - 1974)
- Civil Engineer, Technical Staffs Division, Corning Glass Works, Corning, New York (1970)
CONFERENCE PROGRAM

Tuesday, February 17, 2015

8:00 - 10:00 a.m. AMAP Board Committee Meetings – Boardroom 1

10:00 - 12:00 p.m. AMAP Board of Directors Meeting (Board Members Only) – City Terrace 10
Tabletop Exhibit Setup – Sky Bridge

11:00 a.m. Registration Desk Open – City Terrace Foyer

12:30 - 5:00 p.m. Modified Asphalt 101 Workshop:
An Introduction to Modified Asphalt and Emulsions Technology – City Terrace 9
(Attendees must register separately for this event.)

Instructors:
• John Casola, Malvern Instruments
• Laurand Lewandowski, Owens Corning
• Bob Klutz, Kraton Polymers
• Chris Lubbers, Kraton Polymers
• Cristian Clopotel, Honeywell
• Jean-Valery Martin, Innophos

1:30 - 4:00 p.m. Pavement Preservation Subcommittee – Formation Discussion – City Terrace 7

5:00 - 6:30 p.m. Tabletop Exhibits Open – Sky Bridge
Bold City Brewery craft beers being served in the exhibit area

5:00 - 6:00 p.m. AMAP Business Meeting (AMAP Member Company Representatives Only)
Meeting Chair: Jeanne Kendrick, President, AMAP

6:30 - 8:00 p.m. Opening Reception (All attendees, speakers, and spouses are welcome) – River Terrace 3

7:00 a.m.-11:59 p.m. Exhibitor Meeting Room – Boardroom 2
Open to exhibitors for meetings – reserve at the Registration Desk
Available Tuesday, Wednesday & Thursday
CONFERENCE PROGRAM

Wednesday, February 18, 2015

7:00 - 8:15 a.m. Moderators and Speakers’ Breakfast (AMAP hosted) – City Terrace 10
7:00 - 8:15 a.m. Continental Breakfast for registered attendees and spouses – River Terrace 1 Foyer
Tabletop Exhibits Open – Sky Bridge
7:15 - 3:30 p.m. Registration desk open

AMAP CONFERENCE – RIVER TERRACE 1
8:15 - 8:45 a.m. Welcome – Jim Sattler, Executive Director
President’s Opening Remarks / Welcome – Jeanne Kendrick, Kraton Polymers
• Introduction of new members

8:45 - 9:30 a.m. Keynote Address — Tim Ruelke, Director of the Office of Materials, Florida DOT

SESSION 1 – GENERAL SESSION
Moderator: Jeanne Kendrick, Kraton Polymers
9:30 - 10:30 a.m. Asphalt Institute & Asphalt Pavement Alliance Update — Peter Grass, Asphalt Institute
10:30 - 10:45 a.m. Break
10:45 - 11:45 a.m. National Asphalt Paving Association’s Focus and Actions — Jay Hansen, NAPA
11:45 - 1:30 p.m. Luncheon
• Recipients of the Dr. David R. Jones IV Scholarship Program
• Guest Speaker — Ratanjit S. Sondhe, Executive Coach and Author

SESSION 2 – OWNER/AGENCIES
Moderator: Kevin Hardin, Associated/Mariani
1:30 - 2:15 p.m. The Evolution of Florida’s Binder Specification—Tanya Nash, Florida DOT
2:15 - 2:45 p.m. Modified Emulsions Test Methods and Evaluation for Performance Grading — Gerry Reinke, MTE
2:45 - 3:15 p.m. PG Graded Chip Seal Specifications — Jerry Peterson, Texas DOT
3:15 - 3:30 p.m. Break
3:30 - 4:15 p.m. Louisiana’s MSCR Analysis for Modified Asphalt Specifications — Bill King, Louisiana DOTD
4:15 - 5:00 p.m. Alabama’s Modified Asphalt Experiences — Lyndi Blackburn, Alabama DOT
5:00 - 6:30 p.m. Tabletop Exhibits Open – Sky Bridge - Bold City Brewery craft beers served in the exhibit area
6:30 - 8:00 p.m. Reception – Honoring Dr. David A. Anderson – AMAP Asphalt Hall of Fame inductee & Lifetime Achievement Award recipient – River Terrace 3
7:00 p.m. Presentation of AMAP Lifetime Achievement Award
CONFERENCE AGENDA
Thursday, February 19, 2015

7:00 a.m.-8:00 a.m.  Continental Breakfast – River Terrace 1 Foyer

SESSION 3 – SPECIFICATIONS AND TECHNICAL UPDATES
Moderator: Ken Grzybowski, PRI Asphalt Technology

8:00 - 8:45 a.m.  FHWA Expert Task Groups Update – Matt Corrigan, Federal Highway Administration

8:45 - 9:30 a.m.  NCAT’s Modified Asphalt Efforts – Buzz Powell, National Center for Asphalt Technology

9:30 - 10:15 a.m.  Crumb Rubber Testing and Specification Progress Update – John D’Angelo, D’Angelo Consulting

10:15 - 10:30 a.m.  Break

10:30 - 11:00 a.m.  MSCR Analysis & Relationships – Jerry Peterson, Texas DOT

11:00 - 11:30 a.m.  MSCR Specification and Implementation Progress Report Update – Mark Buncher, Asphalt Institute

11:30 - 12:00 p.m.  Open Panel Discussion of industry experts available to discuss relevant current asphalt related topics

12:00 - 12:45 p.m.  Lunch

SESSION 4 – MODIFIED ASPHALT INNOVATIONS
Moderator: Don Siler, Marathon Petroleum

12:45 - 1:30 p.m.  Review of Pavement Performance with and without PPA – Harold Von Quintus, ERES Consultants

1:30 - 2:15 p.m.  Lee Road; A Pavement Preservation Project on a Quarry Road – Buzz Powell, NCAT

2:15 - 2:30 p.m.  Break

2:30 - 3:15 p.m.  Modified Asphalt Production, Storage and Testing – Edgard Hitti, Alon

3:15 - 4:00 p.m.  Investigation of Emulsified Asphalt Properties by Dynamic Shear Rheometer to Evaluate Their Performance – Delmar Salomon, Pavement Preservation Systems & Amir Golalipour, Anton Paar USA

4:00 - 4:45 p.m.  New innovative characterization methods for asphalt binders under development at WRI – Jean-Pascal Planche, Western Research Institute

5:00 p.m.  Meeting Adjourns

The David Jones IV
SCHOLARSHIP AND INTERN PROGRAM

AMAP established the David R. Jones IV Scholarship Fund in 2010. The Fund honors our friend, colleague, Asphalt Hall of Fame recipient and a true legend of our industry, the late Dave Jones. As a true academic we know Dave would be pleased we are helping students interested in pursuing careers in the asphalt industry in his memory. Our program initially started with one $1,000 scholarship per year. The fund has now grown to a point where we now award two $2,000 and one $1,500 scholarship every year.

This year we have 65 applicants from Colleges and Universities across North America. We continue to be impressed with the quality of students applying. The selection process has become more difficult each year of the program. This has prompted us to consider other viable ways we might be helpful.

To that end, AMAP is reaching out to Member Companies interested in providing summer internships for interested student who have applied for scholarships as well as other quality students. These are highly motivated young people who are working toward a career in the asphalt industry. Many have completed undergraduate degrees and have published academic papers. We truly expect this networking process to be a win-win opportunity for our Member companies and the students that participate. However success depends on project support from our member companies.

Please take this chance to support AMAP’s David Jones Intern initiative back to your respective companies and evaluate your possible placement possibilities. Keeping in mind many of these students come preloaded with laboratory and engineering skills and can fill meaningful roles while gaining valuable real world experience.

In the coming weeks you will be hearing more about this program. In the meantime, we would like to hear more from you and your company’s potential interest in supporting this program. Contact Jim Sattler at jimsattler@modifiedasphalt.org

# Association of Modified Asphalt Producers

**APPLICATION FOR MEMBERSHIP**

## Membership Type

We submit our application for membership under the following category (please check one):

- [ ] Producer Membership — $2,000 annually  
  Companies that manufacture, react, let-down or otherwise produce or sell modified liquid asphalt binders.

- [ ] Supplier Membership — $2,000 annually  
  Companies that sell polymers, additives or any product considered raw material used in the manufacture of asphalt binders.

- [ ] Associate Membership — $850 annually  
  Companies that provide services and equipment to the Producer and Supplier members. This group includes testing and mix design labs, engineering and research firms, asphalt paving contractors, and manufacturers and distributors of plant and lab equipment and those selling technology.

- [ ] Friends of the Association — $85 annually  
  Academics, students, DOT/Government Transportation personnel, liaison persons from other associations and other interested parties.

*Please note that AMAP’s Board of Directors will be the final authority on which membership category is appropriate for the applicant.*
